# Town Council Meeting

January 16, 2024

We were still dealing with a lot of leaves people were continuing to put out in the street. We were sort of forced to pick them up or we would have had a lot of drainage problems.

We now have all out snow and ice equipment tested and should be ready to go.

Got caught up hauling and clearing out the limb and yard waste at our drop off site.

We got started cleaning and servicing our seasonal equipment.

The senior center roof now has been replaced.

## TOWN MANAGER TALKING POINTS FOR JANUARY 16, 2024 COUNCIL MEETING

1 – Work has begun in preparation for the 2024 Dubois County Leadership Academy. The board will be meeting this Friday afternoon to officially re-organize/elect officers and lock in session dates and topic points. Our opening class will be held on April 4 at the Ferdinand Branch Library with Tad Dickel again serving as our moderator. Application information is being sent out to numerous HR and Personnel departments and posted on social media to attract candidates for our 14<sup>th</sup> Academy!

2 – We are also moving full speed ahead with the 2024 Folk Festival. The volunteer committee has met twice since early December. We have revamped the donation request letter and updated the funding levels to provide additional sponsorship opportunities for willing donors. Work is continuing on streamlining the vendor information letter, making it more specific to each vendor group. Headway is also being made toward our musical acts, although an official release is still a couple of months away.

3 – Our cyber-security assessment process has moved a step closer to completion. Members of the Assessment team hosted a Zoom session last Wednesday morning. Gary Eck with Eck-Mundy, who assisted with the completion of written questionnaire participated along with me answering follow up and clarifying questions from the answers that were

  - o Budget 5% - 8% of Construction Cost – Engineering and Construction Admin. Fees can vary depending on grant funding involvement and type of grant.

**Note:**

This is a preliminary budget cost estimate and is prepared to the best of our ability based on our knowledge of construction costs and research performed. The local labor rates were used in calculating the cost of construction labor. We feel this estimate is within reason, based on other similar project costs. Prevailing Wage Rates were not figured in with these budgetary estimates. Federal grant funding can require Prevailing Wage requirements on projects. If a federal grant is obtained for the project, it is recommended that 30% be added to the estimate total. We also recommend adding 5% for inflation (per year) to master planning budgetary costs for projects that will be performed/constructed in future years.
