

Storm Sewer & Curb Installation

Alabama Street

Date: 7/23/2026

Owner: Town of Ferdinand, IN

Contractor: Knies Construction, Inc.

Project start & Resident Contact Request

Dear Resident,

Knies Construction will be starting work on Alabama Street in the next few weeks. This will involve new storm sewer installation, new curb and new asphalt surface paving.

Please call 812-482-1024 and provide us with your cell phone number. We plan to send text messages with project updates. We will not be handing out letters, so please provide us with your number. Please have numbers to us as soon as possible.

Please note: In the locations of new curb installation, this will affect driveways and require new concrete at the road. This will make your driveways non accessible during this period. This will be something we will stay in contact with you and give you exact dates.

The Town of Ferdinand and Knies Construction will strive to make this construction process as smooth and least burdensome as possible for every resident affected. If anyone has any issues or concerns, please don't hesitate to utilize the contact below

Thank you

Knies Construction Inc.
